

# **PBXact Software**

Host your Own
Fully-Featured UC
Platform Based
on Open-Source
Technology

Datasheet

PBXact Software is a unified communication platform designed to be installed on your own hardware or virtualized environment. It offers the same great features as Sangoma's on-premise PBXact appliances with added deployment flexibility, allowing you to save on hardware costs or create a completely virtualized environment. PBXact Software offers unlimited user and call capacity, only limited by the hardware/ VM you choose.

## √ Quick-Start Installation Wizard

The quick-start Installation Wizard for PBXact makes it incredibly easy to get your PBX set up with basic conguration in just a few minutes!

# √ Integrated SIPStation™ SIP Trunking

Sign-up with the award winning SIPStation service directly from the administration GUI and automatically configure within seconds. Look no further for VoIP Service without needing technical knowledge for setup.

# $\sqrt{\text{Zero-Touch Provisioning}}$

Out-of-box automatic configuration with Sangoma's IP Desk phones, from anywhere in the world. The EndPoint Manager Tool within the administration GUI enables centralized control of every phone's configuration and firmware.

# **√ Integration With Your Existing Tools**

Built-in click-to-dial and screen-pop for web-based Customer Relationship Management (CRM) tools.

# √ Mobility & Remote Worker Friendly

Desktop and mobile apps deliver HD voice calling, parking conferencing, SMS/MMS\*, and group chat, ideal for sales, support or contact center staff.

### **Quick Facts**

- Start with as many users as you need and grow to virtually unlimited user licenses
- Includes softphone clients for desktop and mobile
- Integration to CRM and other 3rd-party Apps
- Compatible on most commercially available hardware
- Virtual Machine compatible
- Support for virtually unlimited calls and users (limited by your hardware / VM
- Maintenance Plans available

## √ Powerful Features From Your Desk Phone

Users can now control complicated features directly from their Sangoma IP Desk Phones right out-of-the-box. There's no need to memorize hard to remember feature codes!

# **√ Flexible Deployment**

PBXact is available on certified Sangoma appliances, as software for your own hardware and virtual machines, as a cloud service, and as a service (Saas) for partners to offer to their customers.

## √ Web-based User Control Panel

User Control Panel (UCP) lets every user manage their own calls settings, conference call rooms, voicemail, and contact center features via customizable widgets.

# **√** Advanced Recovery

Avoid catastrophic failure with the Advanced Recovery module which delivers automatic failover to a secondary PBXact system.

# **Technical Specifications**

## **Codec Support**

#### Software

 ulaw, alaw, gsm, g.722, g.726, slin, ilbc, g.729 and opus

#### **Minimum Requirements**

#### 1-100 Users

- CPU: Intel Celeron Quad-Core
- Memory: 2-4 GB RAM
- Storage: 120 GB (250 GB above 75 users)

## 100-500 Users

- CPU: Intel Core i5
- Memory: 4-8 GB RAM
- O Storage: 2 x 250 GB

#### 500-1200 Users

- CPU: Intel Core i7 Quad-Core
- Memory: 16 GB RAM
- Storage: 2 x 500 GB

#### 1200 Users and above

- OPU: Dual Intel Xeon Six-Core
- Memory: 32 GB RAM
